Remaining	£401.07		

The children have enjoyed making healthy food choices and helping prepare homemade food. We purchased an airfryer for the children to cook with as airfryers are now popular with young families. The children have experimented with drying fruits as an alternative to sweets and have enjoyed all their homemade efforts. A particular favourite was the made from scratch afternoon tea for their mummy's who were invited in for mothers day, they made sandwiches, sausage rolls, scones and cakes.
