

Felixstowe Ferry  
SAILING CLUB

*Felixstowe Ferry Sailing Club (FFSC) is delighted to be able to offer on the water activities to a wider scope of people thanks to the support of Felixstowe Town Council Mayors Grant which enabled the club to purchase buoyancy aids in a wider range of sizes.*

*Sizes of Junior and Adult S to XXXL will allow all to get afloat at FFSC 'Try Sailing' Open Days held each year and also as part of the RYA approved Sailing and Powerboat courses that are run through the Training Centre.*

*With the season fast approaching now is the time to get involved, especially with new kit now available. Join us for one of our 'Try Sailing' Open Days or book a course and jump on the water in one of our brand-new buoyancy aids! Learn the basics of boat handling, sailing theory, boat tuning, seamanship and racing. Sail safe and in style.*

*After gaining experience through our sailing courses, as a club member you are able to hire club boats (Laser, Dart 16, Laser 2000) for club sessions and your own sailing adventures. With hire boats available, monthly membership payments and a selection of wet-wear available, we are truly breaking down the cost barrier to entry of water sports!*

*FFSC provides great leisure and competitive sailing at all states of the tide from the River Deben in Suffolk on the East Coast. Our club has been the host of many National Championships for classes such as Fireflies, 505s, Dart 18s and is well known throughout the catamaran sailing community. 'Sailing in Company' is a growing weekend fixture within the club - Sailors explore the river and coast, from Felixstowe Pier all the way to Wilford Bridge in Melton.*

*No matter what you sail, whether it's a windsurfer, kitesurfer, cruiser, mono-hull or multi-hull we will welcome you with open arms to a great sailing and social club. We have a thriving Youth Sailing section which caters for our younger members and a new 18-25 group for our more adventurous students. If you are trying to find a sailing club to join then come and visit us.*
