

Ordinary Council Meeting 4 February 2015 – Appendix G

Felixstowe Town CCTV Police report: October 2014 - December 2014.

This is the first quarterly report for the Felixstowe CCTV project and is intended to give a brief summary of the volume and type of crimes and incidents that the Police deal with in the areas covered by the existing CCTV cameras.

I have attached a list that records the incidents and details in five columns.

Column A lists the location of the incident

Column B lists the date of the incident

Column C lists the Police crime or incident number

Column D lists a description of the Crime or incident (RTC) stands for Road Traffic Collision

Column E indicates by an asterisk if a suspect has been identified if relevant.

As you can see, there is a fairly broad range of incidents that have occurred in these areas and I have not included every type of incident such as littering or parking offences, but I have chosen the type of incidents that the CCTV evidence is generally used.

In some of the investigations the CCTV images have been the only reason a suspect was identified. In other incidents the images have supplemented and assisted in corroborating witness or Police Officer evidence.

When we have a CCTV operator on duty the CCTV can be used to alert Police to incidents or monitor groups of people leaving the licenced venues on the sea front for example.

In future I hope to provide more detail of the specifics of some of these incidents. I will only be able to give historical examples as many of the recent incidents may still be subject of a pending prosecution which I will not be able to disclose at this time.

Ordinary Council Meeting 4 February 2015 – Appendix G

During this quarter I have calculated that the CCTV volunteers have given 120 hrs of their time in monitoring and operating the cameras. The majority of the hours were between 2200hrs and 0300hrs at weekends to cover the Night Time Economy periods.

A number of Police Officers are also trained in downloading images from the system to a suitable disc exhibit for evidential purposes.

We are currently recruiting 2 additional volunteers who are currently going through induction training and will be joining the existing team.

We are keeping records of when a fault is reported to the contactors STC, and when these are repaired.

I hope you find the report of some use in determining the value and effectiveness of the system. I welcome any feedback or suggestions on alterations to the report for future quarters.

Regards

PS 733 Peter Street

Felixstowe and District Safer Neighbourhood Team
