

## **... Is Good for Business**

### **It represents and supports enterprise and commercial life across the town**

Felixstowe Chamber reflects the diverse demographic and unique personality of the town. In addition to close links with the Town Council and other East Suffolk councils and business associations, it has joint membership with the Felixstowe Port Users' Association (FPUA).

Other benefits include:

- Regular contact with a wide variety of local businesses
- Lively, friendly and informative breakfast meetings, training and advice workshops, as well as regular special evening networking events throughout the year
- Advance information on changing trading conditions/planning applications, proposed business developments and Town and County Council News
- Input into the council-backed Felixstowe Forward initiative, the Town Improvement Plan and other local activities
- Regular updates from Suffolk Chamber of Commerce
- Intelligence on routes to market via the East Suffolk Business Networking Association, the East Suffolk Partnership & New Anglia Growth Hub
- Its business directory offers members an opportunity to promote their news, achievements and events to one and all

The Chamber helps new and more established enterprises influence the way forward for the town's business centre – and all for the price of a cup of coffee a week! It is currently probing the needs of local businesses and the availability of facilities required to launch and support innovative business start-ups.
