

ART ON THE PROM

Art on the Prom is one of the most popular events in the Felixstowe tourism calendar. In 2018, 25000 people attended. It contributes to the local economy by giving local artists the opportunity to sell their original work. Evaluations show that sales are good and that a majority of the public who attend use local cafes and businesses on the day.

None of this would be possible without the generous support of Felixstowe Town Council whose annual grant has helped provide fencing on which the artists display their work and also contributes to the core running costs of the event.

In 2019 Art on the Prom will take place on Sunday September 1st from 10am to 4.30pm between the pier and the Spa Theatre and on the approach road to the theatre. There will be over 120 artists displaying and selling their original work covering a wide range of media including textiles, glass, ceramics, photography as well as drawing and painting.

Art on the Prom is a community event and we respond to the feedback the public gives us. The Art activity tents on the greens are led by our experienced artists and encourage people of all ages to engage in artmaking for themselves.

Art on the Prom also works with local schools and the resulting children's artwork in 2018 was on display at the event. Local artist, Tracy Barritt-Brown, worked with schools and also produced a willow piece herself which is now on display in the Spa gardens.

An important feature of Art on the Prom is its inclusive, community ethos. Bands and entertainers help to make this an event which makes people feel proud of their town. There is something for all ages.

We are always ready to welcome anyone who would like help with this amazing event. Contact us via our website
