

## **Civic & Community Committee 20 February 2019 – Appendix C**

### **Felixstowe Town CCTV Police Report – October to December 2018.**

I have changed the details of the quarterly CCTV report to highlight some examples of incidents resulting in prosecution or formal action from the Police.

In some of the investigations the CCTV images have been the only reason a suspect was identified. In others the images have supplemented and assisted in corroborating witness or Police Officer evidence.

When we have a CCTV volunteer operator on duty the CCTV can be used to alert Police to incidents or monitor groups of people leaving the licenced venues on the sea front for example.

On other occasions when there is no volunteer monitoring, Officers investigating incidents submit a request for a DVD copy of images recorded on the cameras to be prepared as evidence to assist them.

**Although there were a number of investigations in areas covered by the CCTV cameras during this quarter, none of these resulted in a Court conviction.**

The CCTV system is generally operating more reliably and STC have attended promptly on 8 separate occasions when faults have been reported during this period.

3 new volunteers are being trained in the CCTV unit, joining 3 other regulars still active in the scheme.

It is my intention to continue to produce a quarterly CCTV report which will be made available to the council to help them evaluate the effectiveness of the CCTV system. If you have any feedback or questions relating to this report then please come back to me.
