Dear Ash

Felixstowe Sea Front Lighting

The festoon lighting along the Prom is coming to an end of lifespan, with approximately 5 years left until it requires replacement.

There has been a number of informal discussions on what this replacement should be, with differing ideas put forward. East Suffolk Council and East Suffolk Norse would like to formally ask Felixstowe Town Council for their opinion on the style and type of lighting suitable for the Prom, before further work takes place to bring forward a project.

Yours sincerely

Laura Hack

Delivery Manager

East Suffolk Council
