

At Felixstowe Hockey Club we run three men's and two ladies' teams as well as a youth section with players ranging from age four up to 14. We provide training and competitive playing opportunities for over 180 members throughout the year.

We aspire to ensure the continuation of our excellent coaching and support provision and to meet the recommendations of the latest Safe Hockey guidance. However, we are a family club that is heavily reliant on our dedicated volunteers.

We identified the need to enhance our safeguarding provision and provide an established first aid provision for our members and the wider hockey family.

Unfortunately, the pandemic resulted in a loss of regular, vital income for the club, meaning we would have difficulty continuing to invest in the education and development of our dedicated volunteers.

Thanks to the funding we have been granted by Felixstowe Town Council, we will now be able to ensure our volunteers can go ahead with further training programmes to achieve qualifications that will help to future proof our club.

We cannot thank our local council enough for their support.
