

Edible Felixstowe- short report

We have started getting ready for the growing season and so far with Felixstowe Town Council money we have:

- Bought a mobile blackboard to show what we are doing every week in the various growing sites. Every week when we are doing the gardening we have people asking us what we are up to, and a mobile blackboard can explain what we are working on that week and invite people to get involved

- Created better signage to put up at all the growing sites so people know what is growing and when it is ready

Created a QR trail in the town in the planted areas which would link to our website. We are using this on all our marketing materials including the for the sow n grow event coming up .

-Created a dedicated Edible Felixstowe website to promote and market the event and all our activities.

The Edible Felixstowe website can be found here: <https://www.ediblefelixstowe.org/>. The website contains all the latest news, upcoming events, information about us, what we did in 2024 and our plans for 2025.

The money we have received (around £350) has still not been spent on :

- Child's smoothy bike,
- Electric Urn,
- Cooking activity materials,
- Additional Marketing materials and Prizes

These will all be required for our celebration event to be held on Saturday 20th September 2025.
