

We would like to thank Felixstowe Town Council for the two grants received in 2024/25.

The Sea Cadets have not spent the money yet. The amounts are ring fenced in a reserve account for the purposes of the applications which was for a new classroom – land clearance/ skip hire/ footings and classroom furniture.

The unit has started the project albeit the progress has been slower than expected.

Please see below before and after photos, we are also sending you planning permission and a document outlining the schedule of works for the Avenir project for your information.
