

Thank you so much for your generous funding support for the Felixstowe Wellbeing Hub and the installation of blinds for the windows of the venue.

This support will ensure that the organisations that use the Hub can be assured of confidentiality in their meetings as required, and more insulation can be provided in the winter months.

We are delighted with the results of the installation by Felixstowe Blinds. They are a highly efficient local business and were kind enough to reduce the price of the blinds to enable coverage of half of the windows of the Hub.

Please see below photographs of the blinds being installed and in situ.

I think you will agree the colours are both bright and cheerful and warm and comforting, and we are delighted with the effect and the functionality.

Thank you again for your support

Best regards

Laura Locke
